

Federico De Cillia

Lead Data Scientist & AI Solutions Architect · Co-founder, FlyLabs.ai

I architect AI systems and build reliable AI agents that augment people.

Milan, Italy

With over 12 years of experience designing end-to-end Data & AI solutions, I turn ambiguous business problems into production systems people actually use, working across discovery, solution architecture and hands-on delivery.

I lead the Data Science team for DTC Assortment Intelligence at EssilorLuxottica, where I architect and implement AI systems end-to-end for Retail Assortment, Merchandising and Space Management across 18,000+ stores worldwide, mainly on Azure and Databricks.

Alongside this I co-founded FlyLabs.ai, an AI studio: I ship production AI products, deliver AI solutions for other companies, and train teams to adopt AI with real judgment. I build daily with Claude Code, OpenAI Codex and Google Antigravity.

EXPERIENCE

Lead Data Scientist · EssilorLuxottica, Global Retail & DTC Assortment Intelligence 2021 – present

- Lead a data science team; own the architecture and end-to-end delivery of AI initiatives across 18,000+ stores and 100+ markets, mainly on Azure and Databricks.
- Built forecasting, anomaly-detection, clustering, optimization and recommendation engines on governed retail data foundations.
- Shipped Genie and LLM systems giving merchandising, category and space teams natural-language access to enterprise data.
- Impact: incremental revenue, cost optimization, license savings and multi-FTE efficiency gains.

Co-founder & AI Consultant · FlyLabs.ai, Freelance 2019 – present

- Co-founded FlyLabs.ai, an AI studio shipping production AI products; delivered AI agents, LLM chatbots, automations and Agent Skills to 50+ businesses; Fiverr Vetted Pro (5/5 across 100+ projects).
- Run tailored AI trainings (generative AI, LLMs, agents, automation) for audiences from beginners to technical teams; weekly public series on practical AI use (52 AI Tips, LinkedIn).
- Advise clients on high-impact use cases and lead delivery end to end, from discovery and solution architecture to production rollout.

Co-founder & Technology Lead · Porta Moneta APS, nonprofit volunteer role 2022 – present

- Built the digital operating layer: Website, WeGrocery app, Google Workspace, AI chatbot, Digital membership.

Senior Data Scientist · Nielsen 2017 – 2021

- Delivered AI, BI & ML models on audience and panel data across 10+ countries, and built scalable data pipelines.

Data Scientist · Bip — Business Integration Partners 2016 – 2017

- Pioneer of Bip xTech CoE. Delivered ML & NLP models at Sky Italy to improve retention and upselling marketing strategies.

Data Mining Junior Officer · Università Bocconi 2015

EDUCATION

MSc & BSc in Statistical Sciences · University of Padua 2008 – 2014

LLP Erasmus, Economics · Universitat Pompeu Fabra, Barcelona 2012

IT Technical Diploma (Perito Industriale, Informatica) · ITI F. Severi, Padua 2004 – 2008

SKILLS

AI engineering: LLMs, AI agents, AI solution architecture, RAG, MCP, tool use, evals, fine-tuning, prompt & context engineering, Claude Code, Codex, Antigravity

ML & data science: Python, R, Supervised & Unsupervised Learning, Time Series Forecast, NLP, MLOps, embeddings & vector DBs

Data & cloud: SQL, Spark, Databricks, Unity Catalog, Databricks Genie, Power BI, Azure, AWS, GCP, Postgres, Docker, Git & CI/CD

Apps & web: FastAPI, Streamlit, TypeScript, Next.js, React, Vercel

Delivery: solution architecture, discovery & scoping, pre-sales & technical advisory.

Languages: Italian (native), English (C1), Spanish (B2)

CERTIFICATIONS, RECOGNITIONS

Nova 111 Top Talent Italy (2023)

Databricks Machine Learning Professional

Azure Data Scientist Associate (DP-100)

Tackling the Challenges of Big Data — MIT

Deep Learning Specialization — deeplearning.ai

ML for Data Science & Analytics — Columbia University

Machine Learning Specialization — University of Washington

Python for Data Science — University of California
